

## **BAE Systems Honours Analog Devices with a Supplier of the Year Award**

### *ADI among 12 Award Recipients*

Analog Devices, Inc. (ADI) has announced it received a BAE Systems 'Partner 2 Win' Supplier of the Year Award for "Original Component Manufacturer of the Year," based on exceptional performance and contributions to supply chain success in 2019 for BAE Systems' Electronic Systems sector. ADI was selected from a pool of more than 2,200 suppliers that worked with the sector in 2019.

"It is with great pride that Analog Devices accepts this award from BAE Systems," said Bryan Goldstein, Vice President and General Manager Aerospace and Defense Business Unit at Analog Devices. "Our collaboration with BAE is bringing differentiated, cutting-edge electronic technologies to the warfighter and we recognise the criticality of both on-time delivery and quality. It is truly an honour to be recognised in these areas."

BAE Systems' 'Partner 2 Win' programme is designed to achieve operational excellence and eliminate defects in its supply chain by raising the bar of performance expectations to meet the demand of current and future customers. As part of the programme, BAE Systems meets regularly with its suppliers at their locations to transfer best practices to ensure that the components and materials that compose BAE Systems products meet the highest quality standards.

"We are proud to partner with companies – including Analog Devices – committed to delivering the highest quality products on-time, every time," said Kim Cadorette, vice president of Operations for BAE Systems' Electronic Systems sector. "We look forward to continued collaboration and success."

### **About Analog Devices**

Analog Devices (Nasdaq: ADI) is a leading global high-performance analogue technology company dedicated to solving the toughest engineering challenges. We enable our customers to interpret the world around us by intelligently bridging the physical and digital with unmatched technologies that sense, measure, power and connect.
