

Women's Combat Trousers

Today we are comparing the Women's combat trouser offering from Orn and Regatta. Which is the best for comfort, wear and tear plus practicability.

The Regatta trousers are not exactly combat trousers but they are marketed in the same place as action trousers.

The trouser we are comparing are the, [Regatta Ladies Action Trouser](#) Vs the [Orn Condor Ladies Combat Trouser](#).

Orn

Women's Work Trousers Price

Actually there is not much difference in the price between the 2, they both come in at around £18 and thats including the VAT as well. Of course at PPG Workwear the more you buy the more discount you get.

Colour Options

The Regatta just comes in 2 colour choices, navy or black. The Orn ladies combat trouser has a great choice with 5 colour choices. They are black, bottle green, navy, royal and graphite. (grey cargo trousers womens)

Reviews

Curated online reviews suggest that the waist size on the Regatta can be smaller than the stated size so it may be worth considering order the next size up.

Curated online reviews for the Orn combat trousers suggest that these are a well made product and hard wearing.

Our Opinion at PPG Workwear

Orn Ladies Combat Trousers

We feel that it is worth spending a few more pennies on the Ladies Orn combat trousers because in the long run these will last a lot longer. These were built with durability and made to last. The option of inserting the knee pads as well give these

trouser great usage for site work.

Being a female engineer it's an absolute nightmare finding half decent fitting trousers and to be durable as well. Can't get any better than these make if me feel more feminine and freer to work.

Hazel

With the triple stitching it gives these trousers strength but they are also tailored so you can steel feminine even in work clothes.

Regatta Action Trousers

We feel these are not hardy enough for everyday site work. They are a well made pair of trousers and value for money. They would be more suited as the name suggest "action", outdoor rambling / hiking.

The cut of the trousers at the top is not very flattering, this probably to do with the elasticated waist. This may give additional freedom of movement but does compromise the style a l
