

Torch On Membranes

High performance SBS, APP or APAO membranes that are reliable, durable, and long lasting, cost-effective waterproofing systems.

Using state-of-the-art technology, the membranes are environmentally friendly, easy to use and easy to install, can be self-adhesive or fully bonded with certification including BBA, Broof T4, Olivine Carbon Capture mineral and all systems

Heat Activated Membranes

Techno Phase membranes are designed for use where direct torching to the roof deck is to be avoided because of a risk of burning.

Techno Phase is available in plain or minerals surface and is suitable for both new build and refurbishment and carry insurance warranted guarantees

Self Adhesive Roofing Felt

Viapol Line.A is a flame free cold applied high performance, self-adhering system for refurbishment and new building applications.

It is a safe and easy to apply alternative to torch applied systems when regulations or circumstances prohibit the use of naked flames as part of a system with various underlays.

Viapol Membranes

Antiradice membrane

Resistant to chemical and mechanical action of the roots, these membranes are useful in all situations where they are in direct contact with the ground soil such as: roof gardens, underground garages, foundation walls, pools, canalisations and underground boxes.

Carbon capture membranes

Viapol Line.A is a flame free cold applied high performance, self-adhering system for refurbishment and new building applications. It is a safe and easy to apply alternative to torch applied systems where regulations or circumstances prohibit the use of naked flames. It can be used as part of a system with various underlays.

Fire Certificated membrane

A high-performance membrane that satisfies the requirements of Broof T2 and Broof T4.

The membranes can be applied on both flat and pitched roofs and over both combustible and non combustible substrates.

Single mineral overlay

Using the new generation APAO bitumen's specially formulated to provide an ideal solution for re-roofing existing roofs that is quick and easy to install and can incorporate Carbon Capture mineral surface.

Maxiproject comes with 15 or 20 year guarantees.
