

Flood Your Home With Natural Light

Posted on [15th May 2024](#)

Thinking of building an extension or giving your flat roof a makeover?

Do You want to maximise the amount of natural light?

Introducing our new range of SkyPod Roof Lanterns that's been created for today's style conscious homeowner.

Imagine creating a stylish new living area that's flooded with natural light. Imagine an inspiring contemporary design feature that will not only enhance your life style but add value to your home too.

Available in a wide range of sizes and styles so you can create a lantern roof that compliments the individuality of your home. Our Skypod Roof Lanterns are suitable for a wide range of projects such as flat-roofed extensions, orangeries, new builds, kitchen-diners and garage conversions.

Available in UPVC or our premium Aluminium Lantern which offers athermally broken aluminium ridge, ring beam and aluminium rafter top caps. This means it also offers greater protection against harsh summer mid day sun.

With a wide choice of frame colours and 5 self cleaning temperature controlled glass options, our Roof Lanterns can complement your existing roofline styles. We can even supply electrically operated openers to add ventilation to your roof.
