UZIN donate laptop to school.

UZIN have made a donation of laptops to a Junior School near to the Rugby office. Boughton Leigh Junior School has a capacity of four hundred and eighty pupils from around the Rugby area.

Ranging from ages 7-11 the children all require the use of laptops and computers throughout their time at the school. Currently the school have many laptops and computers but are always in need of more to allow each child to have their fair share.

Purchasing Administrator Elia Correia and Marketing Assistant Mia Munton delivered 8 laptops to the school, handing them over to the head boy and deputy head girl. The children were very grateful whilst their teacher explained how useful any donation to the school is.

We hope the donation of laptops will encourage and help the young minds of the community to learn and will be very useful for the school.
