

Robert Smillie Memorial Primary School and Nursery Case Study

Our Client: Robert Smillie Memorial Primary School and Nursery was built in 1957 in South Lanarkshire, Scotland. With around 300 primary and nursery pupils, they aim to provide the very best curriculum and facilities to all their students.

Their Brief: The nursery extension required sanitaryware that would be suitable for younger children, taking in to account ease of use and accessibility. All taps needed to be supplied with copper tails to meet Scottish regulations and Doc M packs were also required to ensure compliancy whilst providing staff with a safe, practical and modern accessible washroom.

Our Solution: Our SanCeram range was specified for this project, including our Shenley range which is ideal for nursery age children and our Chartham range which offers excellent quality and value for money.

SanCeram Shenley Back to Wall 350 Toilet Pan:

- At 350mm from floor to rim, the WC is the ideal height for young children, perfect for use in early years education settings
- Smooth lines allow for easy cleaning with nowhere for dirt to hide

Tyde Concealed Single Flush Cistern with Palm Push Button:

- The palm push button ensures pupils can flush easily
- The cistern is supplied pre-assembled for quick and easy installation
- WRAS approved internals

SanCeram Chartham Wall Hung 450 Basin CTH with SanCeram Basin Mounted Self-closing Mixer Tap:

- The basin offers a modern, easy to clean design, with overflow to prevent accidental flooding
- The mixer tap provides easy to use, press action operation and the self-closing feature ensures no water is wasted

SanCeram Chartham Beyond Back to Wall Rimless Toilet Pan:

- Stylish, comfort height and projection pan with easy cleaning
- Rimless design for optimum hygiene and water saving

SanCeram Chartham Cleaners Sink with Deva Lever Action Bib Taps:

- With a hinged sink grate and built in high splash back, this practical Fireclay sink is an ideal addition to the Caretakers area
- Paired with easy to use, lever operated bib taps, WRAS approved

SanCeram Close Coupled Doc M Packs:

- Includes everything needed to ensure a fit for purpose, DDA compliant, accessible, modern washroom

- Rimless WC ideal for increased hygiene
- Blue Grab Rails enable safe, comfortable movement around the area with colour contrast for visually impaired users

"I have been delighted with the service provided by The Sanitaryware Company from enquiry through to delivery. My Project Manager went above and beyond to ensure the order was correct and happily accommodated any alterations along the way." Craig Mcmanus, Project Manager, BPS Group.
