Labels	120
Barware	128
Index	144

As the trusted tableware supplier to education, early years, healthcare, Horeca, and justice sectors, our comprehensive range of products meets many varied needs from these demanding sectors where safety, functionality, style, value and performance are paramount. We are associate members of HCA, LACA and ASSIST and work closely with these organisations and their members.

Innovation is at the very heart of everything we do. We are always working with our customers to bring to market products that meet their needs. We have added our new range of hi heat polycarbonate bowls, plates, covers and trays, and a ribbed tumbler with discreet graduations for our healthcare customers.

New ranges for this catalogue include the display ware, dishwasher racks and food storage boxes.

Some of these products have come from our EPIQ partners. EPIQ is the leading alliance of European manufacturers of quality plastic tableware. We are all committed to exceeding expectations, delivering the finest products and manufacturing in Europe. Brexit has made this partnership crucial to supporting customers and partners and we are delighted that this relationship continues to go from strength to strength.

The environmental impact of plastic is at the centre of many of our customers' decision making. Harfield have always supplied reusable and recyclable products that have been welcomed by our customers as tried and tested replacement options for disposable products. The environmental impact of disposables and finding alternative solutions to this problem has focussed our planning for new products. Our coffee cup, dessert pot, and compartment boxes are new products that are helping to save the planet and save our customers money.

All the products listed in this catalogue are polycarbonate unless otherwise stated. Polycarbonate is a robust material that will not stain, shatter, or splinter and is virtually unbreakable. It is also dishwasher safe and the perfect choice for today's demanding environments. Please see our care and maintenance information at the back of this catalogue. The most current version can be downloaded from the download section on our website.

Most products are available in many different colours. Due to the different properties of plastics, colours may not be exactly the same and a slight variation in shade can be expected. Products can also be manufactured in different colours to those shown subject to minimum order quantities. Please contact us for further information.

We welcome the opportunity to work with you on finding innovative solutions to your needs, whether it is from our existing range, from one of our EPIQ partners or a completely new product. We want to hear from you!

**Our friendly and helpful customers service team will be delighted to help you. Please contact us on 0161 477 5678 between 8.30am and 4.30pm Monday to Friday. You can email us at [info@harfieldtableware.co.uk](mailto:info@harfieldtableware.co.uk) or visit our website for the very latest information and some special offers [www.harfieldtableware.co.uk](http://www.harfieldtableware.co.uk).**

# The greener tableware solution

Providing a greener tableware solution for our customers is a key aspect of our philosophy, we pride ourselves on helping our customers create a more sustainable future. Keep a look out in this brochure for replacement solutions to single use plastics.

## Made in Europe

No long lead times & less transport pollution.

## Reusable

Save money on disposables.

## 100% recyclable

Help save the environment.
