

Beakers & Cups

Beakers & Cups

Our very first product, the 001 Cup is still proving popular, nearly 60 years after it was first launched. It delights both the young and the old with its versatility. The range has increased considerably since, with our ever popular 009 Beaker with Handle being the highlight of this comprehensive selection of cups and beakers. Recent additions have been feeding cups for the elderly and our world first antibacterial, recyclable, reusable coffee cup – perfect for hot drinks on-the-go.

All products are polycarbonate unless otherwise stated.

O2T & Hi Heat

O2T & Hi Heat

Oven to Tableware was another world first innovation from Harfield, using revolutionary plastics to meet the temperature requirements of our customers and reduce cooking time by up to 10%. The O2T range can go from -40°C to + 220°C – direct from freezer to oven and is microwave safe. It is naturally non-stick and can be used with metal utensils. Please note this range is not unbreakable and the lids are not anti-spill.

We have now introduced a new range of hi heat plastics that are suitable up to 140°C. This range will continue to evolve over the next 12-18 months, so please check our website or contact us for the very latest product information.

O2T 1/2 Size Gastronorm

Antibacterial Range

Antibacterial Range

Harfield's Biomaster protected tableware range is a response to a growing need to do more to tackle disease-causing bacteria and viruses. Protected products help to inhibit the growth of bacteria by up to 99.99% and also SARS-COV-2, the virus that causes Covid-19.

We are able to produce any Harfield products with the antimicrobial additive. Please contact us for more details. Please note this only applies to Harfield products and not those from our EPIQ partners.

All products are polycarbonate unless otherwise stated.

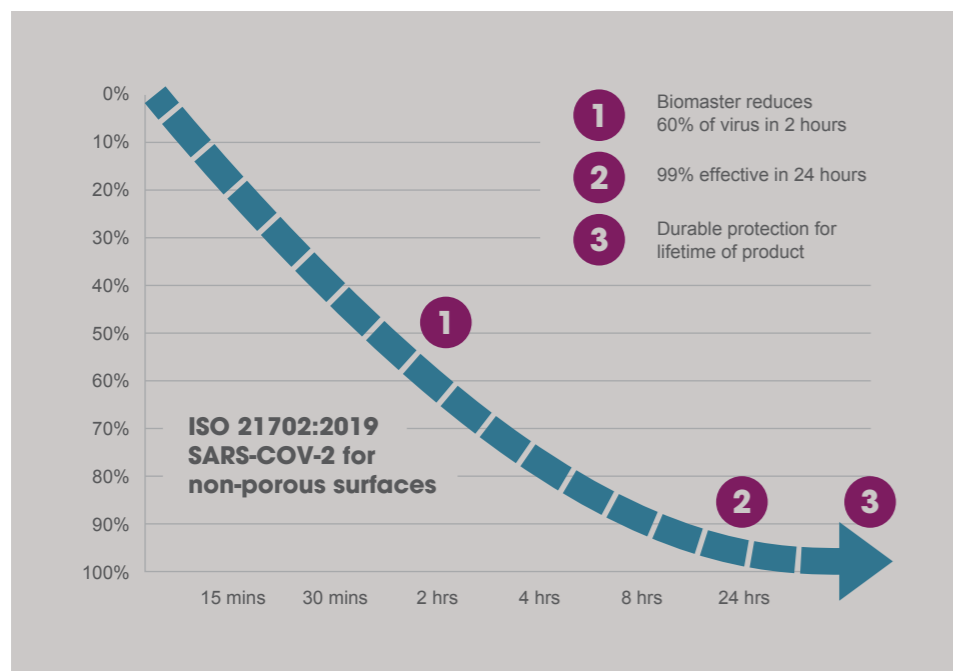

Biomaster protected

Harfield's Biomaster protected tableware is a response to the growing need to do more to tackle disease-causing bacteria and viruses. We can now confirm that Biomaster is active on substrates against SARS-COV-2, the virus that causes Covid-19.

1 Biomaster binds to the cell wall disrupting growth.

2 The Biomaster ions interfere with enzyme production stopping the cell producing energy.

3 Biomaster interrupts the cell's DNA preventing replication.

For illustrative purposes only, actual resuction rate varies depending on material and Biomaster addition rate.

750ml Antibacterial Jug

Reusable antibacterial teaspoons. Ideal for yoghurts, small desserts and hot or cold drinks.
Code: 097
Dimensions: L 14.5cm

Buffet & Display

Wood, slate, marble and concrete are the current trend in serving and displaying food. These materials are notoriously difficult to maintain and keep clean. S-Planks offer all the style of service without the drawbacks. The S-Plank is dishwasher safe and can be personalised with your logo, brand or message to add real impact to your service.

We also have an ever widening range of display items that are guaranteed to impress.

All products are polycarbonate unless otherwise stated.

Buffet & Display

Personalise your S-Plank

Want a S-Plank with your own logo or design? Do you have a unique idea for your own S-Plank? Anything is possible with Harfield. Contact us to make your idea or concept become a reality on +44 (0)161 477 5678.

1

Send your logo, design or image.

2

You will receive a digital example to sign off the design.

3

You can order a sample (optional). A small charge will apply.

4

Receive your personalised S-Planks in approximately 6-8 weeks.

Requirements:

Logo or Design

Illustrator
Vectorial eps
PDF

Image or Design

TIFF, JPG or PNG
Include your fonts
300 DPI (dots per inch)

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 S-Planks you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms. Please note that the personalisation service above applies to Roltex trays. For personalisation of Harfield products, please call us for more details on +44 (0)161 477 5678.

 Capacity: 1200ml (X3 included in set)

Trays

Trays

Enhance your customers' experience and serve them using the finest quality trays.

Choose from a variety of materials and styles to best suit your needs. Plastic trays for an economical solution, Puro and Wave for style and touch, Laminated for design and shape and Polyester for robust and hardwearing. Harfield's meal trays are the industry standard for quality, value and purpose and are now joined by sectional trays from our EPIQ partners. Please note that a + after the code denotes anti-slip.

Personalisation and anti-slip options are also available on some trays.

Personalise your trays

Want a tray with your own logo or design? Do you have a unique idea for your own tray? Anything is possible with one of Harfield's trays. Contact us to make your idea or concept become a reality on +44 (0)161 477 5678.

1

Send your logo, design or image.

2

You will receive a digital example to sign off the design.

3

You can order a sample (optional). A small charge will apply.

4

Receive your personalised trays in approximately 6-8 weeks.

Requirements:

Logo or Design

Illustrator
Vectorial eps
PDF

Image or Design

TIFF, JPG or PNG
Include your fonts
300 DPI (dots per inch)

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 trays you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms. Please note that the personalisation service above applies to Rolltex trays. For personalisation of Harfield products, please call us for more details on +44 (0)161 477 5678.

Anti-Slip

An anti-slip layer can be added to most Laminated, Earth and some Polyester trays. Even your personalised trays can have an anti-slip layer. For the very best appearance we recommend dark tray colours when choosing an anti-slip option for a Laminated or Earth tray.

Meal Trays

Polycarbonate and polypropylene compartment trays. Our sectional meal trays are robust for the most demanding of environments. Trays made from polycarbonate are virtually unbreakable, dishwasher safe and stackable. These trays make service quick and easy in fast paced settings to allow more customers to be served. Our bright colours are always popular. Polypropylene sectional trays are also robust and designed for education and healthcare. These trays are dishwasher safe. Food can be eaten directly from all our meal trays.
