

THE WIDEST RANGE OF ENVIRONMENTAL TEST CHAMBERS

Environmental test chambers create temperature & humidity extremes for reliability testing during product development to replicate climatic conditions which materials and products may ultimately be exposed to in the field.

Whatever your environmental testing challenge, as the **UK Representative for Espec's** World leading environmental Test Chambers, Unitemp can meet your reliability testing needs with a broad range of test chamber models that cover everything from benchtop units to walk-in room 'controlled environment' facilities. We have cabinets suitable for a wide range of applications in numerous industries.

Automotive

Aerospace &
Defence

Communications

Pharmaceuticals

We Have The Cabinet To Fit Your Application

Whatever your requirement, Unitemp and Espec have the perfect solution.

ESPEC deliver quality construction and innovative designs. Many of the environmental test chambers built include optional features or customization to exactly fit the customer's application.
